Sensorimotor Psychotherapy Institute

An evening presentation, in person

Introduction to Sensorimotor Psychotherapy

Presented by Lisa Johnson Taylor, MA, LP

What does the body know that the story leaves out?

Sensorimotor Psychotherapy™ is a body-oriented talk therapy that uses bodily experience, rather than the events of the story, as a primary entry point in trauma treatment. This evening introduces the core principles of the method and what it looks like in session.

Lisa Johnson Taylor, MA, LP

Licensed Psychologist · she/her

Thursday October 29, 2026

6:30 – 8:30 pm

Healing Connections Therapy Center
